

# LEARNING STARTS HERE

TRIMESTER THREE 2026-2027

**JOIN THE SPARK LEARNING PALS COMMUNITY FOR A YEAR OF GROWTH, CREATIVITY, AND CONNECTION.**

***Discover all of our live class offerings for Trimester 3 (March-May) of the 2026-2027 school year!***

Explore the All Star Learning Pod options available and browse our wide range of additional engaging and exciting live classes. With so many enriching opportunities, this is a school year you won't want to miss!

# ALL STAR LEARNING POD PROGRAM

***Enrollment in our All Star Learning Pod Program includes access to one learning pod or Micro Pod .***

Our team will use the information you provide in the enrollment form to place your child and share our pod recommendations. If you'd like your child to participate in more than one learning pod, you'll need to purchase the *Two Student Plan*, which reserves two spots in the program—even if both are for the same child.

\*Enrollment in our Micro Pod Program is available by inquiring via email. If you are interested in enrolling in one of our Micro Pods, please email us at [info@sparklearningpal.com](mailto:info@sparklearningpal.com).

<b>Class Title</b>	<b>Class Description</b>	<b>Age Range</b>	<b>Teacher</b>	<b>Schedule</b>
<p><b>All Star Learning Pod-Orton-Gillingham Level 1</b></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>This welcoming and supportive learning pod is designed for students with dyslexia, dysgraphia, or those struggling with reading who have had little to no prior Orton-Gillingham instruction. Using the proven, research-based Orton-Gillingham approach, this pod provides a structured, multisensory foundation for reading and writing success.</p> <p>Students will build confidence as they develop essential literacy skills through explicit instruction, hands-on activities, and consistent routines. With a focus on phonological awareness, sound-symbol relationships, and proper letter formation, students will begin to make meaningful connections between spoken and written language in a low-pressure, nurturing environment.</p> <p><b>Skills Students Will Build:</b></p> <ul style="list-style-type: none"> <li>● Phonological &amp; Phonemic Awareness</li> <li>● Letter-Sound Correspondence (phonics)</li> <li>● Blending &amp; Segmenting CVC Words</li> <li>● Reading High-Frequency Words</li> <li>● Handwriting &amp; Letter Formation</li> <li>● Basic Spelling Rules</li> <li>● Simple Sentence Writing</li> <li>● Listening Comprehension</li> <li>● Confidence &amp; Engagement with Reading</li> </ul>	Ages 5-12	Mrs. Christy	<p>Semester 1 &amp; 2</p> <p>Day &amp; Time TBD</p> <p>Meets 2x week for 60 minutes per session</p> <p><i>*Limited spots available</i></p>

<p><b>All Star Learning Pod-Orton-Gillingham Level 2</b></p> <p><i>Formerly known as Reading &amp; Writing for Exceptional Learners</i></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>This structured and supportive learning pod is designed specifically for students with dyslexia and/or dysgraphia who have already received at least 6 months of Orton-Gillingham instruction. Building on the foundational rules and principles of the OG method, this Level 2 pod helps students strengthen and apply their skills across reading, writing, and spelling.</p> <p>Through targeted lessons, interactive activities, and consistent multisensory strategies, students will gain confidence as they move beyond decoding into fluency, comprehension, and written expression. Whether writing paragraphs, reading short passages, or mastering more complex spelling patterns, learners will continue to grow at their own pace in a highly structured, encouraging environment.</p> <p>Skills Students Will Build:</p> <ul style="list-style-type: none"> <li>● Advanced Phonemic Awareness</li> <li>● Decoding Multisyllabic Words</li> <li>● Spelling with OG-Based Patterns</li> <li>● Reading Fluency &amp; Comprehension</li> <li>● Structured Paragraph Writing</li> <li>● Grammar &amp; Sentence Structure</li> <li>● Vocabulary Building &amp; Word Study</li> <li>● Self-Editing &amp; Proofreading Strategies</li> <li>● Confidence in Reading and Writing Tasks</li> </ul>	<p>Ages 8-13+</p>	<p>Mrs. Beckman</p>	<p>Meets 2x a week for 60 minutes per session</p> <p><i>*Limited spots available</i></p>

--	--	-------------------	---------------------	--

<p><b>All Star Learning Pod- Building Math Success for Students with Dyscalculia</b></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>This compassionate and confidence-boosting learning pod is designed specifically for students with dyscalculia or persistent difficulties with math. Using a highly structured, multisensory, and visual approach, this class helps students understand numbers in a way that makes sense to them—without pressure or shame.</p> <p>With consistent routines, plenty of repetition, and real-life math connections, students will build a strong foundation in number sense and problem-solving. Small group instruction allows for individualized support and targeted intervention in a safe, encouraging online environment.</p> <p><b>Skills Students Will Build:</b></p> <ul style="list-style-type: none"> <li>● Number Sense &amp; Place Value</li> <li>● Visualizing Quantities &amp; Part-Whole Relationships</li> <li>● Addition &amp; Subtraction Strategies with Manipulatives</li> <li>● Understanding Multiplication as Groups</li> <li>● Fractions Using Visual Models</li> <li>● Math Vocabulary &amp; Language Development</li> <li>● Word Problem Solving with Graphic Organizers</li> <li>● Strategies for Math Anxiety &amp; Self-Advocacy</li> <li>● Confidence &amp; Independence with Math Tasks</li> </ul>	<p>Ages 8-13</p>	<p>Mrs. Kassi</p>	<p>Meets 2x a week for 60 minutes</p> <p><i>*Limited spots available</i></p>
--	---	------------------	-------------------	--

<p><b>All Star Learning Pod- Early Primary</b></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>This playful and nurturing online pod is designed for young learners who are building the foundation of their academic journey. Through interactive lessons, multisensory activities, and engaging games, students will explore core reading, writing, and math concepts in a developmentally appropriate way. Small group instruction allows for individualized attention and plenty of opportunities to build confidence and community.</p> <p><b>Skills Students Will Build:</b></p> <p><b>Reading:</b></p> <ul style="list-style-type: none"> <li>● Phonemic Awareness</li> <li>● Phonics &amp; Decoding (CVC &amp; basic blends)</li> <li>● Reading Fluency</li> <li>● High-Frequency Sight Words</li> <li>● Reading Comprehension Strategies</li> </ul> <p><b>Writing:</b></p> <ul style="list-style-type: none"> <li>● Letter Formation &amp; Handwriting</li> <li>● Sentence Structure (capitalization, punctuation)</li> <li>● Writing Simple Sentences</li> <li>● Beginning Spelling Patterns</li> <li>● Oral Storytelling to Written Expression</li> </ul> <p><b>Math:</b></p> <ul style="list-style-type: none"> <li>● Number Sense &amp; Counting</li> <li>● Addition &amp; Subtraction Strategies</li> <li>● Place Value Understanding</li> <li>● Shapes &amp; Measurement</li> <li>● Introduction to Word Problems</li> </ul>	<p>Ages 6-8</p>	<p>Mrs. Christy</p>	<p>Meets 2x a week for 60 minutes per session</p> <p><i>*Limited spots available</i></p>
--	---	-----------------	---------------------	--

<p><b>All Star Learning Pod-Primary</b></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>In this dynamic and supportive pod, students will deepen their understanding of core academic subjects while developing independence and critical thinking skills. With a focus on reading comprehension, clear written expression, and practical math applications, students will participate in hands-on activities, group discussions, and structured skill-building that keeps learning both fun and meaningful.</p> <p><b>Skills Students Will Build:</b></p> <p><b>Reading:</b></p> <ul style="list-style-type: none"> <li>● Comprehension of Fiction &amp; Nonfiction Texts</li> <li>● Identifying Main Idea &amp; Supporting Details</li> <li>● Vocabulary Development</li> <li>● Reading Fluency &amp; Expression</li> <li>● Analyzing Characters, Setting, and Plot</li> </ul> <p><b>Writing:</b></p> <ul style="list-style-type: none"> <li>● Paragraph Writing (Topic, Details, Closing)</li> <li>● Grammar &amp; Sentence Structure</li> <li>● Organizing Ideas for Writing</li> <li>● Editing &amp; Revising for Clarity</li> <li>● Writing for a Variety of Purposes</li> </ul> <p><b>Math:</b></p> <ul style="list-style-type: none"> <li>● Multi-Digit Addition &amp; Subtraction</li> <li>● Multiplication &amp; Division Foundations</li> <li>● Fractions &amp; Decimals (Introductory)</li> <li>● Word Problem Strategies</li> <li>● Data, Graphing &amp; Measurement Concepts</li> </ul>	<p>Ages 9-11</p>	<p>TBD</p>	<p>Meets 2x a week for 60 minutes per session</p> <p><i>*Limited spots available</i></p>
---	--	------------------	------------	--

<p><b>All Star Learning Pod-Intermediate</b></p> <p><i>*Must be enrolled in All Star Learning Pod Program for Access</i></p>	<p>This pod is built for middle school learners who are ready to expand their academic abilities and apply them to real-world challenges. Students will strengthen critical reading skills, sharpen writing techniques, and deepen their understanding of math concepts through collaborative discussions, problem-solving tasks, and project-based learning.</p> <p><b>Skills Students Will Build:</b></p> <p><b>Reading:</b></p> <ul style="list-style-type: none"> <li>● Analyzing Theme, Tone, &amp; Author’s Purpose</li> <li>● Interpreting Figurative Language</li> <li>● Reading for Evidence &amp; Inference</li> <li>● Understanding Text Structure in Fiction &amp; Informational Texts</li> <li>● Comparing Multiple Texts &amp; Perspectives</li> </ul> <p><b>Writing:</b></p> <ul style="list-style-type: none"> <li>● Multi-Paragraph Essay Writing</li> <li>● Argumentative &amp; Informative Writing</li> <li>● Research &amp; Citing Sources</li> <li>● Grammar, Punctuation, &amp; Sentence Variety</li> <li>● Revising for Style &amp; Clarity</li> </ul> <p><b>Math:</b></p> <ul style="list-style-type: none"> <li>● Operations with Fractions &amp; Decimals</li> <li>● Ratios, Percent &amp; Proportional Reasoning</li> <li>● Pre-Algebraic Thinking</li> <li>● Geometry &amp; Measurement Concepts</li> <li>● Multi-Step Problem Solving &amp; Application</li> </ul>	<p>Ages 12-15</p>	<p>Mrs. Hannah</p>	<p>Meets 2x a week for 60 minutes per session</p> <p><i>*Limited spots available</i></p>

**All Star  
Learning  
Micro Pod-  
OG Level 3 +  
Dyscalculia**

*\*Enrollment available by  
emailing us at:  
info@sparklearningpal.com*

*\*Enrollment in a Micro Pod  
is NOT available on our  
website. Please inquire via  
email if interested in  
enrolling in one of our  
Micro Pods.*

This pod meets 2x per week for 90 minutes and provides intensive support in reading, writing, spelling, and math. Instruction is multisensory, explicit, systematic, and paced to support students with dyslexia, dysgraphia, dyscalculia, ADHD, and other learning differences.

Students will continue strengthening foundational literacy skills while advancing into more complex spelling rules, syllable patterns, morphology, reading fluency, comprehension, written expression, and math concepts. Students will also receive individualized dyscalculia support using visual models, repetition, hands-on strategies, and number sense development.

**Skills students will work on include:**

- Advanced spelling rules and phonics patterns
- Morphology (prefixes, suffixes, roots, and word meaning)
- Multisyllabic word decoding and encoding
- Reading fluency and comprehension
- Sentence and paragraph writing skills
- Grammar and sentence structure
- Executive functioning and organization strategies
- Number sense and place value
- Addition, subtraction, multiplication, and division strategies
- Visual math representations and problem solving
- Math fact fluency with conceptual understanding
- Dyscalculia intervention strategies and confidence building

This Micro Pod provides one of the highest levels of individualized support we offer outside of 1:1 instruction and is ideal for students who benefit from intensive small-group teaching, repetition, encouragement, and targeted intervention.

Ages 9-  
13

Mrs.  
Beckman

Meets 2x a  
week for 90  
minutes per  
session

*4 Students per  
Micro Pod*

<p><b>All Star Learning Micro Pod- OG Level 3</b></p> <p><i>*Enrollment available by emailing us at: info@sparklearningpal.com</i></p> <p><i>*Enrollment in a Micro Pod is NOT available on our website. Please inquire via email if interested in enrolling in one of our Micro Pods.</i></p>	<p>Our Orton-Gillingham Level 3 Micro Pod is designed for students who are ready to build upon foundational Orton-Gillingham skills and move into more advanced structured literacy concepts in a highly supportive small-group setting. With only 4 students per pod, this program provides intensive, individualized instruction while allowing students to learn alongside peers with similar learning needs.</p> <p>This pod meets 2x per week for 90 minutes and focuses specifically on advanced Orton-Gillingham reading, writing, and spelling instruction for students with dyslexia, dysgraphia, ADHD, and other language-based learning differences. Instruction is multisensory, explicit, systematic, and designed to help students strengthen both accuracy and confidence. Students will continue developing decoding, encoding, fluency, comprehension, spelling, and written language skills while working through more advanced Orton-Gillingham concepts and patterns.</p> <p><b>Skills students will work on include:</b></p> <ul style="list-style-type: none"> <li>• Advanced spelling rules and phonics patterns</li> <li>• Morphology (prefixes, suffixes, roots, and base words)</li> <li>• Greek and Latin roots</li> <li>• Multisyllabic word reading and spelling</li> <li>• Syllable division strategies</li> <li>• Reading fluency and expression</li> <li>• Reading comprehension strategies</li> <li>• Vocabulary development</li> <li>• Sentence structure and grammar</li> <li>• Paragraph and written response writing</li> <li>• Editing and self-correction strategies</li> <li>• Executive functioning and organization skills related to writing and reading tasks</li> </ul> <p>This Micro Pod provides one of the highest levels of literacy support we offer outside of 1:1 tutoring and is ideal for students who benefit from intensive small-group instruction, repetition, individualized support, and a structured literacy approach.</p>	<p>Ages 9-13</p>	<p>Mrs. Beckman</p>	<p>Meets 2x a week for 90 minutes per session</p> <p><i>4 Students per Micro Pod</i></p>

# LIVE CLASSES

***Explore our full lineup of live, teacher-led classes for Semester 1 of the 2026–2027 school year!***

Browse each class to discover what we're offering, including detailed descriptions, the skills your child will develop, recommended age ranges, the teacher leading the class, and scheduling details.

Also, please note which *program enrollment* is required to access each class—this will help ensure you're signed up for the right plan.

We're excited to kick off another inspiring school year with the Spark Learning Pals community!

Included With	Content Area	Class Title	Class Description	Age Range	Teacher	Schedule
All Stars Rockets Launch Pad	Arts & Enrichment	<b>The Masterpiece Studio</b>	Unleash your creativity in this exciting hands-on art class designed for young artists of all skill levels! In Masterpiece Studio, students will explore a variety of artistic techniques including painting, expressive brushwork, stamping, collage, mixed media, texture creation, and pattern design while creating their own unique masterpieces. Through guided projects and creative exploration, students will build artistic confidence, experiment with different materials and styles, and learn how to express their ideas through art in a fun and supportive environment.	Ages 5-12	Mrs. Christy	Trimester 3
All Stars	Arts & Enrichment	<b>Spring Splendor: Mixed Media Art</b>	Celebrate the colors and beauty of spring through creativity and artistic exploration! In this hands-on art class, students will create a variety of spring-inspired projects using mixed media techniques such as painting, drawing, watercolor, collage, texture art, and more. From blooming flowers and rainy day scenes to butterflies and nature-inspired creations, students will experiment with different materials and artistic styles while building confidence, creativity, and self-expression in a fun and encouraging environment.	Ages 8+	Mrs. Christy	Trimester 3
All Stars Rockets Launch Pad	Arts & Enrichment	<b>Blooms &amp; Brushes: Springtime Watercolor Studio</b>	Celebrate the beauty of spring through relaxing and creative watercolor painting! In this engaging art class, students will explore watercolor techniques such as blending, layering, texture, and color mixing while creating beautiful spring-inspired artwork. From blooming flowers and gardens to butterflies, rain showers, and nature scenes, students will build artistic confidence and creativity while enjoying a calming and supportive studio-style environment. Perfect for students who love art, creativity, and the colors of spring!	Ages 8+	Mrs. Christy	Trimester 3
All Stars	Arts & Enrichment	<b>Etiquette and Manners Tea Time</b>	Step into a charming and engaging class focused on timeless social skills, kindness, confidence, and respectful behavior! Through fine art, biographies, interactive discussions, fun activities, and hands-on practice, students will explore etiquette and manners in both historical and modern settings. Topics may include table manners, respectful conversation, introductions, gratitude, social confidence, and thoughtful behavior in everyday life. This class creates a warm and encouraging environment where students can build important life skills while enjoying creativity, connection, and a touch of tea-time fun.	Ages 6-12	Mrs. Christy	Trimester 3

All Stars Rockets	<b>Arts &amp; Enrichment</b>	<b>Playful Clay</b>	Squish, roll, shape, and create in this fun hands-on clay art class! Students will strengthen fine motor skills and creativity while following step-by-step directions to create unique clay masterpieces. Through playful projects and guided instruction, students will practice shaping, molding, texture techniques, and creative design while building confidence, focus, and artistic expression in a supportive and engaging environment. Perfect for young artists who love hands-on creativity and imaginative fun!	Ages 5-7	Mrs. Christy	Trimester 3
All Stars	<b>Arts &amp; Enrichment</b>	<b>Code Lab: Advanced Coding &amp; Game Design</b>	Students will build on existing coding knowledge through more advanced projects focused on coding logic, game design, interactive challenges, and creative problem-solving. Students will strengthen skills in areas such as debugging, sequencing, variables, and project design while creating their own coding projects in a collaborative online environment. This class is ideal for students who already have foundational coding experience and are ready for more complex coding challenges and independent project work.	Ages 12+	Mrs. Hannah	Trimester 3
All Stars	<b>Arts &amp; Enrichment</b>	<b>Mystery Box Challenge Club</b>	What's inside the mystery box this week? Students will use creativity, critical thinking, and problem-solving skills to complete exciting building, art, STEM, and design challenges using simple materials from home. Each class introduces a surprise theme that encourages imagination, flexibility, and innovation in a highly interactive format.	Ages 7-14	Mrs. Hannah	Trimester 3
All Stars Rockets	<b>Arts &amp; Enrichment</b>	<b>Design Your Dream Room</b>	In this creative design class, students will become interior designers as they plan, sketch, decorate, and organize their dream bedrooms, gaming rooms, reading spaces, or creative studios. Students will explore color palettes, layouts, budgeting ideas, and design styles while strengthening creativity and presentation skills.	Ages 10-18	Mrs. Kassi	Trimester 3
All Stars	<b>Arts &amp; Enrichment</b>	<b>Harry Potter Wizards Academy</b>	Step into a magical world filled with creativity, mystery, and imagination! Students will participate in wizard-themed art projects, STEM experiments, creative writing, games, trivia, and magical challenges inspired by the wizarding world. Perfect for students who love fantasy, adventure, and interactive learning.	Ages 7-13	Mrs. Kassi	Trimester 3
All Stars Rockets	<b>Arts &amp; Enrichment</b>	<b>Sonic Speed Lab</b>	Race into exciting STEM and creative challenges inspired by Sonic! Students will explore speed, motion, engineering, obstacle challenges, games, and themed activities while building creativity and problem-solving skills in a high-energy environment.	Ages 8-13	Mrs. Hannah	Trimester 3

All Stars	<b>English Language Arts</b>	<b>Twisted: Stories That Turn on You</b>	What do a jumping frog, a ten-year-old kidnapper, a man who can't get himself arrested, two dystopian futures, and a small town lottery have in common? They all start in one place and land somewhere completely different – and they all have something sharp to say about the world we actually live in. This discussion-based literature class takes students through wildly different short stories exploring how writers use humor, irony, and social critique to tell hard truths with a light touch – until the light touch disappears entirely. Every story is read aloud together in class, unpacked in small groups, and debated as a whole. This class closes with a high-stakes escape room where students race to recover the most dangerous idea hidden inside each story before the Bureau of Acceptable Thinking shuts them down.	Ages 13–18	Mrs. Katie	Trimester 3
All Stars	<b>English Language Arts</b>	<b>Ink &amp; Imagination</b>	A fun, low-pressure creative writing class where stories come to life through character creation, worldbuilding, dialogue, descriptive writing, plot twists and more. Students will experiment with a variety of prompts and different writing styles, play creative writing games, and build confidence as writers while getting plenty of in-class time to write, share, and create.	Ages 13–18	Mrs. Katie	Trimester 3
All Stars Rockets	<b>English Language Arts</b>	<b>Shakespeare Without the Boring Parts</b>	Sword fights, disguises, pranks, romance, ghosts, terrible decisions, dramatic speeches, and legendary insults – Shakespeare's plays were made to entertain, and this class brings them to life in a fun and interactive way for teens. Students will explore Shakespeare's world through games, acting activities, scene readings, modern media connections, creative challenges, and discussions while building confidence reading and understanding Shakespearean language. Instead of reading entire plays, students will focus on the most entertaining and meaningful scenes while discovering how Shakespeare still influences movies, TV, music, and storytelling today.	Ages 13–18	Mrs. Katie	Trimester 3
All Stars Rockets	<b>English Language Arts</b>	<b>Cook &amp; Create: Story Time Art Club</b>	Stories come to life in this fun and creative hands-on class! Learners will enjoy listening to classic and beloved children's stories while creating simple no-cook treats and themed art projects inspired by each book. From playful snacks and sweet creations to crafts, drawing, and imaginative activities, students will build creativity, listening skills, and confidence while making meaningful connections between stories, art, and hands-on fun. Perfect for young learners who love books, creativity, and tasty treats!	Ages 5–8	Mrs. Christy	Trimester 3
All Stars Rockets	<b>English Language Arts</b>	<b>Fractured Fairy &amp; Tall Tales</b>	Step into a world of silly stories, exaggerated adventures, and twisted fairy tales! In this fun and engaging reading class, students will explore fractured fairy tales, tall tales, and other playful genres of literature while learning about figurative language, storytelling elements, and author creativity. Through interactive read-aloud, discussions, games, and creative activities, students will strengthen comprehension skills while discovering how authors use humor, exaggeration, imagery, and imaginative storytelling to bring stories to life. Perfect for readers who enjoy laughter, creativity, and playful adventures!	Ages 8–12	Mrs. Christy	Trimester 3

All Stars Rockets	<b>English Language Arts</b>	<b>Shakespeare Reader's Theater</b>	Bring classic literature to life through performance, creativity, and fun! In this engaging reader's theater class, students will explore Shakespeare's famous stories and characters using simplified modern language designed to make the texts accessible and enjoyable. Through dramatic reading, character expression, discussion, and interactive performance activities, students will build fluency, comprehension, confidence, and appreciation for classic literature in a supportive and entertaining environment. Perfect for students who enjoy acting, storytelling, and bringing stories to life!	Ages 12+	Mrs. Christy	Trimester 3
All Stars Rockets Launch Pad	<b>English Language Arts</b>	<b>Reading Detectives: Comprehensi on Skills for Beginning Readers</b>	Put on your detective hat and get ready to solve reading mysteries! In this engaging early reading class, students will practice important comprehension strategies that help them better understand and think about what they read. Through interactive stories, games, picture clues, discussions, and hands-on activities, readers will learn skills such as making predictions, retelling stories, identifying key details, asking questions, and understanding characters and events. This supportive class helps beginning readers build confidence, comprehension, and a stronger love for reading.	Ages 5-8	Mrs. Christy	Trimester 3
All Stars	<b>English Language Arts</b>	<b>Journal Writing for Self- Expression</b>	Discover the power of personal writing in this thoughtful and creative journaling class! Students will explore self-expression through guided journal prompts, reflection activities, creative responses, and meaningful discussions designed to inspire confidence and authentic writing. Along the way, students will strengthen writing fluency, organization, descriptive language, and communication skills while developing their own unique voice in a supportive and encouraging environment. Perfect for students who enjoy creativity, storytelling, reflection, and personal growth through writing.	Ages 13-18	Mrs. Kassi	Trimester 3
All Stars	<b>English Language Arts</b>	<b>Debate &amp; Argument Writing Club</b>	Learn how to think critically, express ideas clearly, and support opinions with evidence in this engaging discussion and writing class! Students will strengthen both speaking and writing skills through structured debates, persuasive discussions, and argument writing activities focused on age-appropriate and thought-provoking topics. Along the way, students will practice respectful communication, active listening, organization of ideas, and supporting claims with reasoning and evidence. This interactive class encourages confidence, critical thinking, collaboration, and meaningful discussion in a supportive environment.	Ages 11+	Mrs. Hannah	Trimester 3
All Stas	<b>English Language Arts</b>	<b>Orton- Gillingham Reading and Spelling: Next Steps</b>	Students will continue strengthening spelling, decoding, and reading fluency skills through structured, multisensory Orton-Gillingham instruction. Building upon previously learned concepts, this class introduces new spelling rules, syllable types, phonics patterns, and decoding strategies in an engaging and supportive environment designed to help students continue growing in confidence and reading success.	Ages 7-13	Mrs. Kassi	Trimester 3

All Stars Rockets	<b>Math</b>	<b>Math in the Real-World For Little Learners</b>	Math is everywhere! In this fun and interactive class, little learners will discover how math is used in everyday life through hands-on activities involving shopping, cooking, telling time, measuring, counting, and problem-solving. Through games, pretend play, discussions, and real-world practice, students will build confidence with foundational math skills while learning how math helps us in daily routines and activities. Perfect for young learners who learn best through movement, exploration, and hands-on fun!	Ages 6-8	Mrs. Hannah	Trimester 3
All Stars	<b>Math</b>	<b>Real-Life Math Skills</b>	Discover how math is used in everyday life through practical and engaging activities! In this interactive class, students will apply math skills to real-world situations such as shopping, cooking, budgeting, measuring, planning, and problem-solving. Through hands-on challenges, discussions, and real-life scenarios, students will strengthen math confidence while learning how important math skills help with everyday decision-making and independence. This class makes math meaningful, useful, and fun in a supportive learning environment.	Ages 8-12	Mrs. Hannah	Trimester 3
All Stars Rockets	<b>Math</b>	<b>Problem Solving Power Hour</b>	Put your thinking skills to work in this engaging and interactive problem-solving class! Students will strengthen logical thinking, perseverance, and multi-step problem-solving skills through puzzles, brain teasers, strategy games, math challenges, and critical thinking activities. This supportive class encourages students to think creatively, explain their reasoning, and build confidence while tackling a variety of fun and challenging tasks designed to strengthen flexible thinking and problem-solving abilities.	Ages 9-12	Mrs. Hannah	Trimester 3
All Stars	<b>Math</b>	<b>Personal Finance for Teens</b>	Prepare for the future by building important real-world money skills! In this practical and engaging class, teens will explore topics such as saving, spending, budgeting, banking, financial goal setting, and smart money management. Through interactive activities, real-life scenarios, discussions, and budgeting challenges, students will learn how to make thoughtful financial decisions and develop habits that support financial confidence and independence as they prepare for adulthood.	Ages 13-18	Mrs. Hannah	Trimester 3
All Stars	<b>Math</b>	<b>Minecraft Math Builders</b>	Combine creativity and math in this exciting Minecraft-inspired class! Students will complete building challenges, survival missions, and design projects while practicing important math skills such as multiplication, area, perimeter, fractions, measurement, budgeting resources, and problem-solving. Through interactive activities and game-inspired challenges, students will strengthen math confidence while exploring the creative world of Minecraft in a fun and engaging online format.	Ages 9-13	Mrs. Kassi	Trimester 3

All Stars	<b>Math</b>	<b>Financial Literacy Through Real-Life Scenarios</b>	Build real-world money skills through interactive and realistic financial challenges! In this practical and engaging class, students will work through everyday financial situations involving budgeting, saving, spending, banking, credit, bills, and decision-making. Through discussions, simulations, problem-solving activities, and real-life scenarios, students will practice making thoughtful financial choices while building confidence and important life skills they can use in the future. This class encourages critical thinking, responsibility, and financial awareness in a supportive and age-appropriate environment.	Ages 13-18	Mrs. Hannah	Trimester 3
All Stars Rockets	<b>Math</b>	<b>Theme Park Math Designers</b>	Students will become theme park engineers and designers while using math to create roller coasters, maps, ticket pricing, budgets, food stands, ride schedules, and attractions. Through creative building and planning challenges, students will strengthen problem-solving, measurement, geometry, money math, and critical thinking skills in a highly interactive format.	Ages 10-14	Mrs. Kassi	Trimester 3
All Stars	<b>Math</b>	<b>YouTube Creator Math Studio</b>	What does it take to run a successful YouTube channel? Students will explore real-world math skills through fun creator-inspired activities involving budgeting, views and analytics, merchandise pricing, sponsorships, scheduling, and business planning. This engaging class helps students connect math to content creation, entrepreneurship, and digital media in a highly relevant and motivating way.	Ages 12-18	Mrs. Kassi	Trimester 3
All Stars Rockets	<b>Social Studies</b>	<b>History's Mysteries-U.S. Edition</b>	Become a history detective while exploring some of America's most fascinating mysteries and unsolved questions! In this engaging class, students will investigate intriguing events, famous figures, lost discoveries, mysterious moments, and debated stories from United States history. Through evidence analysis, discussions, timelines, and critical thinking activities, students will examine clues, explore different theories, and develop their own conclusions while building a deeper understanding of American history in a fun and interactive way.	Ages 12+	Mrs. Christy	Trimester 3
All Stars	<b>Social Studies</b>	<b>Hero or Hype?</b>	Was this historical figure truly a hero...or just surrounded by hype? In this fun and interactive history class, students will explore the lives and accomplishments of famous people from history while creating creative biography posters to showcase what they learn. Through discussions, research, and critical thinking activities, students will examine the impact, choices, and legacy of historical figures before deciding whether they deserve the title of "history superhero" or if their reputation may be more hype than hero. This engaging class encourages deeper thinking, analysis, creativity, and meaningful historical discussion.	Ages 12+	Mrs. Christy	Trimester 3

All Stars Rockets Launch Pad	<b>Social Studies</b>	<b>National Parks Passport</b>	Travel across the country and explore the wonders of America's National Parks! In this engaging class, students will "visit" a variety of famous National Parks while learning about the science, history, wildlife, geography, and natural landmarks connected to each location. Through interactive discussions, virtual exploration, creative activities, and fun facts, students will discover how nature, history, and conservation come together while building curiosity and appreciation for the incredible landscapes and stories found within our National Parks.	Ages 8-12	Mrs. Christy	Trimester 3
All Stars Rockets	<b>Social Studies</b>	<b>Propaganda Detectives</b>	Become a critical thinker and media detective in this engaging media literacy class! Students will explore how propaganda, advertising, social media, and news sources are designed to influence what people think, feel, and believe. Through real-world examples, discussions, games, and interactive activities, learners will practice identifying persuasive techniques, bias, emotional appeals, and misleading information. This class encourages thoughtful questioning, critical thinking, and stronger media awareness while helping students become more confident and informed consumers of information in today's world.	Ages 13-18	Mrs. Christy	Trimester 3
All Stars Rockets	<b>Social Studies</b>	<b>History Through Film and Media</b>	How does film shape the way we understand history? In this engaging class, students will explore how movies, documentaries, television, and media portray historical events and influential figures. Through guided discussions, clips, analysis activities, and critical thinking exercises, students will examine historical accuracy, bias, perspective, and the role storytelling plays in shaping public understanding of the past. This class encourages thoughtful discussion, media literacy, and deeper connections between history and modern media.	Ages 13-18	Mrs. Hannah	Trimester 3
All Stars	<b>Social Studies</b>	<b>Geopolitics &amp; Current Events Discussion Club</b>	Explore the events, decisions, and global relationships shaping the world today in this engaging discussion-based class! Students will examine age-appropriate current events and learn how countries interact through trade, conflict, alliances, geography, leadership, and international cooperation. Through guided discussions, critical thinking activities, and real-world examples, students will build global awareness, strengthen communication skills, and practice respectful conversation while learning to think thoughtfully about complex world issues and perspectives.	Ages 13-18	Mrs. Hannah	Trimester 3
All Stars Rockets Launch Pad	<b>Social Studies</b>	<b>Learning History Through Art: Medieval History</b>	Travel back to the Middle Ages through art, creativity, and history! In this engaging class, students will explore life during medieval times while creating drawings and art projects inspired by the people, castles, knights, symbols, and culture of the era. Through hands-on activities, discussions, and creative expression, students will build a deeper understanding of medieval history while strengthening artistic skills and imagination in a fun and interactive environment.	Ages 10-14	Mrs. Christy	Trimester 3

All Stars	<b>Social Studies</b>	<b>The Money Game: Economics in Action (An Introduction to Microeconomics and Personal Finance)</b>	<p>How choices, money, and markets actually work</p> <p>In this interactive simulation-based course, students learn how money really moves through everyday life —why prices change, how ads influence spending, what makes wages rise or fall, and how people navigate saving, spending, and debt.</p> <p>Through games, debates, and real-world scenarios, students explore supply and demand, opportunity cost, budgeting, credit and debt, advertising psychology, and even entrepreneurship. Every week feels like a new challenge where students must think like consumers, workers, and business owners to survive and succeed in a realistic economic world.</p>	Ages 13-18	Mrs. Katie	Trimester 3
All Stars Rockets Launch Pad	<b>Science</b>	<b>Wild Weather Science Explorers</b>	<p>Spring weather can be wild! In this exciting science class, students will investigate tornadoes, thunderstorms, rainbows, clouds, flooding, wind, and other extreme weather events through hands-on experiments, STEM challenges, weather tracking, and interactive activities. Students will explore the science behind weather patterns while building curiosity, critical thinking, and scientific observation skills in a fun and engaging environment.</p>	Ages 10-13	Mrs. Bonds	Trimester 3
All Stars Rockets	<b>Science</b>	<b>Spring Slime &amp; Chemistry Studio</b>	<p>Get ready for stretchy, squishy science fun! In this highly engaging hands-on class, students will explore chemistry concepts while creating a variety of spring-themed slimes and sensory creations. From fluffy flower slime and rainbow slime to glow slime and bubble experiments, students will learn about mixtures, reactions, textures, and states of matter through exciting STEM activities designed to make science fun and memorable.</p>	Ages 9-13	Mrs. Bonds	Trimester 3
All Stars Rockets	<b>Science</b>	<b>Biology Lab: The Science of Life</b>	<p>Dive into the fascinating world of living things through hands-on biology investigations and lab activities! In this engaging high school-level science class, students will explore topics such as cells, genetics, ecosystems, the human body, microorganisms, plant systems, and animal adaptations through interactive experiments, observations, dissections or virtual labs, scientific modeling, and data analysis activities. Students will strengthen scientific thinking, lab skills, observation techniques, and critical thinking while discovering how biology connects to the world around them. Perfect for curious students who enjoy science, experiments, and real-world exploration of life science concepts.</p>	Ages 13-18	Mrs. Bonds	Trimester 3
All Stars Rockets	<b>Science</b>	<b>Mrs. Frizzle It!</b>	<p>Students will travel inside science topics from physical science (1), earth science (2), and life science (3). Some example field trips would be: "fantastic cell voyages," "inside the human machine," "creature feature safari," "plants with superpowers," "rockin' through Earth," "Journey to Earth's Core," "Volcano Venture", "Inside a Hurricane" and more!</p>	Ages 8-13	Mrs. Kassi	Trimester 3

All Stars Rockets	<b>Science</b>	<b>Bloom &amp; Grow Science Lab</b>	Celebrate the science of spring through hands-on experiments, nature exploration, and exciting STEM challenges! In this interactive science class, students will explore plant life cycles, pollination, weather, seeds, gardens, insects, and ecosystems through creative investigations and simple experiments using everyday materials. Students will build observation, critical thinking, and problem-solving skills while discovering the fascinating science happening all around them during the spring season.	Ages 7-12	Mrs. Bonds	Trimester 3
All Stars Rockets Launch Pad	<b>Science</b>	<b>Nature Journaling Studio</b>	Slow down, observe, and connect with the natural world through art and journaling! In this creative and educational class, students will sketch, write, and reflect while learning about plants, animals, habitats, weather, and life cycles. Through guided nature journaling activities, drawing prompts, and observation challenges, students will strengthen creativity, scientific thinking, and observation skills while developing a deeper appreciation for the world around them. Perfect for curious learners who enjoy nature, art, and hands-on exploration!	Ages 8+	Mrs. Christy	Trimester 3
All Stars Rockets	<b>Science</b>	<b>Nature Detectives: Backyard Birdwatchers</b>	Grab your binoculars and become a backyard bird detective! In this fun and interactive nature class, students will observe, draw, write about, and learn fascinating facts about birds they may spot right outside their windows or in their own neighborhoods. Through nature journaling, simple birdwatching activities, drawing projects, and discussions, students will build observation skills, curiosity, and a deeper appreciation for the natural world while learning about bird behaviors, habitats, colors, and sounds. Perfect for young nature lovers and curious explorers!	Ages 8+	Mrs. Christy	Trimester 3
All Stars Rockets	<b>Life Skills</b>	<b>Life Skills for Kids</b>	Help your child build confidence and independence through important everyday life skills! In this engaging and interactive class, students will explore essential topics such as nutrition, personal hygiene, healthy habits, basic personal finance, organization, communication, and social skills through discussions, games, activities, and real-world examples. This class is designed to help students develop practical skills they can use in everyday life while encouraging responsibility, confidence, and positive decision-making in a supportive environment.	Ages 8-12	Mrs. Christy	Trimester 3
All Stars Rockets	<b>Life Skills</b>	<b>Communication Skills for Tweens &amp; Teens</b>	In this interactive communication skills class, students will build confidence in speaking, listening, and expressing themselves effectively in everyday situations. Students will practice real-life skills such as starting conversations, active listening, handling conflict, reading social cues, and communicating clearly in groups. Through engaging discussions, role-playing activities, and interactive scenarios, learners will strengthen their ability to communicate with confidence, respect, and emotional awareness in both social and academic settings.	Ages 13-18	Mrs. Christy	Trimester 3

All Stars Rockets	<b>Life Skills</b>	<b>The Logic Lab</b>	Put your thinking skills to the test in this fun and engaging problem-solving class! Students will strengthen beginning logic and critical thinking skills through a variety of puzzles, brain teasers, riddles, strategy games, and interactive challenges. Each class encourages students to think creatively, look for patterns, solve problems, and build perseverance in a supportive and exciting environment. Perfect for curious learners who enjoy figuring things out and giving their brains a fun workout!	Ages 8-12	Mrs. Christy	Trimester 3
All Stars	<b>Life Skills</b>	<b>Human to Human</b>	The interpersonal communication skills no one officially teaches you – active listening, conflict, empathy, and showing up fully in conversation. You'll practice navigating conflict, responding to someone's problem without defaulting to advice, and walking into an interview feeling prepared instead of panicked. Every session is hands-on, with small-group role-play and real scenarios built around situations you actually face. This is the class you didn't know you needed.	Ages 13-18	Mrs. Katie	Trimester 3
All Stars Rockets	<b>Life Skills</b>	<b>Move It! PE Adventure Club</b>	Students will get moving through fun and engaging fitness games, movement challenges, stretching, balance activities, and beginner exercise skills in a supportive online environment. Each class encourages teamwork, coordination, listening skills, and healthy habits while keeping students active and having fun from home. Activities are designed to be interactive, age-appropriate, and adaptable for different ability levels and spaces. Perfect for students who need movement, energy outlets, and confidence-building through physical activity.	All Ages	Mrs. Kassi	Trimester 2
